

Electronic Forms Solutions – Breaking the Shackles of Pre-Printed Forms

With a wide array of electronic form solutions, TypeHaus has a proven history of liberating companies in numerous industries from the restrictions and waste of pre-printed forms. As a leader in print job reprocessing, TypeHaus' e-form solutions range from simple auto-printed form backgrounds to advanced on-the-fly print job reprocessing – restructuring and modernizing forms, including 1D and 2D barcodes, without altering host applications.

Companies often believe their existing host applications leave them stuck using out-dated pre-printed forms and that huge efficiencies gained from modernizing technologies like 1D and 2D barcodes remain beyond their reach. In reality, TypeHaus works everyday to eliminate these restrictions for companies in a wide variety of industries – often without making changes to existing host applications.

a range of possibilities

Companies wishing only to eliminate the expense and annoyance of constantly reordering pre-printed forms benefit from simpler TypeHaus solutions that automatically print a form background before the host application data is printed. Companies wishing to completely modernize their forms without altering their host applications benefit from TypeHaus' on-the-fly print job reprocessing technologies. These technologies process existing host application print jobs and restructure them before sending them to the printer.

how it works

TypeHaus e-forms solutions reside between the host application and the printer. The precise location can vary depending upon the solution requirements and the company's environment.

The TypeHaus solutions then pretend to be the printer and receive the existing print jobs from the host application. The solutions process the print job, reformat the information as necessary, and then send the restructured print job to the printer.

Global and USA sourced components.

BEFORE

AFTER

Example: Raw Report Transformed to Patient Wristband with Labels

features & benefits

- Eliminate cost and overhead of storing and reordering pre-printed forms
- Utilize efficiency technologies such as 1D and 2D barcoding
- Implement newer regulatory or other form designs without changing host applications
- Improve corporate image with modern font styles and graphics
- Replace outdated, noisy and inefficient impact printers with modern laser printers
- Reduce paper waste and mailing costs by using double-sided (duplex) printing

"Rarely has a supplier given us such complete cooperation. The dot-matrix and pre-printed forms had always been problematic and the quality resulted in constant complaints from our Sales department and customers. We recognized significant savings in pre-printed multipart forms and costly dot-matrix printer maintenance. The eForm boxes gave us the flexibility to enhance our forms without expensive modifications to our ERP system. TypeHaus engineering and customer service were outstanding as well. They were quite responsive and they were flexible and creative in order to devise a solution that fit our needs." – Tomas A. Fajardo, Process Improvements Manager, Dole Fresh Fruit Co.

implementation options

- Rack mountable 1U print server
 - Supports multiple hosts
 - Supports multiple printers
- Ethernet-in/Ethernet-out solution
 - Supports multiple hosts
 - Supports single printer per solution
- HP LaserJet internal solutions
 - Supports multiple hosts
 - Supports single printer per solution

Example: Pre-Printed Dot Matrix Transformed to Full Laser with Auto-Barcodes

about us

TypeHaus designs and manufactures printer hardware devices and software solutions to support enterprise applications requiring enhanced printer resources. TypeHaus is recognized by Fortune 500 companies for its expertise in print stream control, line of high-quality products, and unparalleled pre-sales and post-sales customer support. TypeHaus solutions enable current and legacy systems to take advantage of the latest printing technologies. We are a stocking supplier of check stock and MICR toner. We have been providing solutions for critical document printing since 1992.

warranty & support

All TypeHaus hardware products come with a one-year limited warranty against defects in materials and workmanship from the original date of purchase. Warranty upgrades available.

We always strive to provide a high level of customer service. Our US based service team creates a dependable relationship focused on delivering quality technical support. TypeHaus offers phone support during our regular business hours of 8:00 am to 5:00 pm Pacific Time Monday through Friday.
